

Introduction

Plus One Press is a small, independent publisher, representing an alternative approach to the current mainstream publishing model. We strive to be an author-centric publishing house, where our responsibilities are to our authors and their works, rather than necessarily to some commercialized product-centric vision of maximized profits.

We believe that, by focusing our support on the development of authors, their careers and, most importantly, their voices, we can publish commercially viable material that doesn't simply cater to the lowest-common-denominator/bestseller market. And that by doing so, we better serve the reading public and our own goals in publishing.

Plus One Press publishes trade books and digital media materials for retail and wholesale buyers and resellers. Our products are available for sale in both domestic and international markets.

Plus One Press publishes in the following categories:

- Adult Fiction
- Non-Fiction
- Children & Young Adult

Plus One Press currently maintains three imprints:

- **Plus One Press**
Plus One Press's primary imprint is primarily dedicated to music-related fiction and special showcase works in all fields. Literary works and anthologies sit alongside genre fiction in mysteries, with seasoned veterans sharing the imprint with some stunning new authors.
- **Backstage Press**
The Backstage Press imprint is for our non-fiction music titles. Musician's biographies and memoirs share this imprint with historical and technical books covering different musical styles and instruments.
- **Conservatory Press**
Conservatory Press is for our young readers titles. Children's books for ages 2-9, pre-teen titles and young adult works covering all subjects are available on this imprint.

Statement of CPSIA Compliance

Plus One Press publishes trade books both domestically in the United States and internationally. Our books are printed in the United States by Lightning Source and, per vendor assertion are CPSIA compliant.

Each book is identified as to country of origin/manufacture.

Plus One Press does not, at this time, produce or supply any materials that require independent testing for lead or phthalate content per CPSIA requirements.

Plus One Press does not, at this time, produce or supply any products that pose a choking hazard, or which require the attachment of a Choking Hazard Warning.

Should Plus One Press, in future, produce or supply products or materials which require testing per CPSIA and/or which require the attachment of Choking Hazard Warning, all of Plus One Press' wholesale and distribution partners will be notified in a manner deemed appropriate to each such partner.
